

LIFE RESKIBOOT PROJECT

MID-TERM SECTORIAL WORKSHOP

NEW MODELS FOR CIRCULAR PLASTIC ECONOMY:

innovative solutions for collection, sorting and reuse of secondary raw materials from post-consumer products

 **10:00 - 10:20**

Project presentation

 **10:20 - 10:40**

Recovery of post-consumer ski boots and sorting to turn them into secondary raw materials that will be characterized in comparison to virgin ones

 **10:40 - 11:00**

Design for recycling

 **11:00 - 11:20**

Production process optimization and component manufacturing with secondary raw materials

 **11:20 - 11:40**

Ski boot assembly, characterization and testing

 **11:40 - 12:00**

Evaluation and monitoring of environmental and circularity impacts and benefits

 **12:00 - 12:20**

Discussion
